## **1. Introduction:**

### **1.1 Document Purpose:**

This document communicates the business requirements and scope for developing Home Rental. The scope of this document is to define the functional and non-functional requirements, business rules and other constraint requirements.

### **1.2 Project Background:**

When someone is relocating to a new location he/she faces issues for accommodation & living. As well as Property owners don't have any specific platform to advertise their properties. There is no transparency between tenants & property owner. No facility is present for the tenants and buyers to know the property rates at different locations. Property owners also finds difficulty to target right customers where they can rent their properties for achieving high profits.

### **1.3 Aim & Objectives:**

The project's goal is to create a user-friendly and efficient online platform for everyone to rent different properties on a single place. Tenants can access detailed information about the property and can compare different properties to find suitable one. Once selection of property is done, property owners & customers can directly communicate and can make a deal without any involvement of broker.

## **2. Business Requirements Overview:**

- Home Rental is the online web platform.
- There are mainly two types of users. Two types of users- owner who want to rent property & tenant who are looking for property to live.
- Property owners can list down their properties on website and can find expected tenant.
- Tenants can search for properties available on the website and even the details about the property owners.
- Home Rental provides the transparency which makes business between tenant and the property owner more easy.
- Administrators have access to manage the application.
- Home Rental will be opened to the global, but in the phase 1, the main target is in the India.

## **3. Functional Requirements Overview:**

The Home Rental consists of three modules described below.

1. Administrator Module
2. Tenant Module
3. Home Owner Module

### **3.1 Administrator Module**

- Validate properties & accounts.
- Admin can remove invalid properties & accounts.

### **3.2 Tenant Module**

- Tenant can register and create his own account.
- Tenant can compare multiple properties & will be able to choose property according to his requirement.
- Tenant can rent a property by contacting property owner.
- Tenant can request for owner information as well as property information.

### **3.3 Home Owner Module**

- Property owner can register and create his own account.
- Home Rental provides the function which allows property owners to publish his property for renting.
- Owner can remove his property from listing .
- Owner can see and manage customer requests who are interested in respective property.
- Owner can confirm deal with customer privately.
- Owner can see and manage his properties.
- He /She is able to browse existing Market price.

#### **4. Non-Functional Requirement:**

- The website should use a decent look, feel, and color.
- Users will not have limitations for accessing the application through the Internet. The portal being an internet application, customer will get support anytime on the website.
- Being a public website, the site must follow general usability guidelines for menus, navigation, colors, links and other actions provided on the screens.
- The system should be designed in such a manner that customer can find home easily with our home rental web support.
- Website will suggest to customers about the homes through the images.

## 8. Snapshots:

### 8.1 Home Page:

Following snapshot shows the Home page for Home Rental System before Login.

The screenshot shows a web browser window for a React App at localhost:3000. The title bar says "React App". The address bar shows "localhost:3000". The page content includes:

- Navigation links: Home, Log In, Tenant Registration, Owner Registration.
- A main heading: "Welcome To Home Page".
- A dropdown menu labeled "Select City:" with "Pune" selected.
- A dropdown menu labeled "Select Area:".
- A grid of three items:
  - House  
good house
  - Apartment 1  
hdjkdj
  - House  
fjhkd
- A second grid of three items with detailed information:
  - House  
good house  
Price: 4500  
Deposit: 5000  
[View More](#)
  - Apartment 1  
hdjkdj  
Price: 15000  
Deposit: 30000  
[View More](#)
  - House  
fjhkd  
Price: 20000  
Deposit: 50000  
[View More](#)
- Three small images at the bottom: a building, a room interior, and a house exterior.

## 8.2 Login Page

## 8.3 Admin

### 8.3.1 Admin Home Page

The screenshot shows a web browser window titled "React App" at "localhost:3000/getallproperties". The page is titled "Welcome Admin". It features a search bar for "Enter City Name" (set to "Pune") and "Enter area Name". Below this is a grid of four property cards:

Image	Name	Description	Price	Deposit
	House good house		Price: 4500	Deposit: 5000
	Apartment 1 hdjkdj		Price: 15000	Deposit: 30000
	House fjhkd		Price: 20000	Deposit: 50000
	Apartybsjd Apartment 1		Price: 20000	Deposit: 25000

The screenshot shows the "Home Rental System" homepage. It features a sidebar with a "Shourya property" listing for a "luxurious apartment" with a price of 45000 and a deposit of 50000, with a "View More" button. The main content area has three sections: "Home Rental System", "Quick Links" (with links to "About Us" and "Contact us"), and "headOffice" (with address "Deccan Gymkhana, Pune, postal code: 411016", phone number "+91-7845967852", email "homerental@hrs.com", and social media icons for Facebook, Instagram, LinkedIn, and Twitter).

### 8.3.2 Admin - Show All Tenant Detail

A screenshot of a web browser window titled "React App" at "localhost:3000/getalltenants". The page displays a table of tenant information with columns: ID, First Name, Last Name, Address, Requests Remaining, Contact Number, and Actions (Delete button). The table contains 10 rows of data.

ID	First Name	Last Name	Address	Requests Remaining	Contact Number	Actions
3	Shrikant	Rane	nearschooldelcan	0	1236547896	<button>Delete</button>
4	Suraj	Kushir	yavatmalresidence	0	9999999999	<button>Delete</button>
5	Shrikant	Rane	nearschoollalalakksaa	0	9868968968	<button>Delete</button>
6	Shrikant	Rane	nearschoolasd	0	7777777777	<button>Delete</button>
7	Shrikant	Rane	nearschool	0	9011672412	<button>Delete</button>
8	SHIVAM	SHARMA	Guruprasad	0	8126359226	<button>Delete</button>
9	Yohan	Jirage	ShivajiNagar	10	7941346411	<button>Delete</button>
10	Shiv	Sharma	GokhaleNagar	5	7896541230	<button>Delete</button>

### 8.3.3 Admin - Show All Owner Details

A screenshot of a web browser window titled "React App" at "localhost:3000/getallowners". The page displays a table of owner information with columns: ID, First Name, Last Name, Address, Requests Remaining, Contact Number, and Actions (Delete button). The table contains 6 rows of data.

ID	First Name	Last Name	Address	Requests Remaining	Contact Number	Actions
1	Shri	Rane	manik baugh		7972574986	<button>Delete</button>
2	Shri11	Rane	near		9011672412	<button>Delete</button>
3	Suraj	Kushire	nearschool		4567788989	<button>Delete</button>
4	Shivam	Sharma	GokhleNagar		7859625536	<button>Delete</button>
5	Ram	Krishna	shivajinagar		7945202155	<button>Delete</button>
6	Owner	Home	Kolhapur		7894561230	<button>Delete</button>

### 8.3.4 Transaction Details

The screenshot shows a web browser window titled "React App" with the URL "localhost:3000/getalltransactions". The page has a header with links: "ShowAllTenant", "ShowAllOwner", "ShowAllProperties", "ShowAllTransaction", and "Log Out". Below the header is a section titled "Transaction History" containing a table with the following data:

ID	Email	Date	Amount
1	yohanbalasahab@gmail.com	2023-08-27	50
2	shiv@gmail.com	2023-08-31	125

Below the table, there are three sections: "Home Rental System", "Quick Links", and "headOffice". The "Home Rental System" section contains a message about providing dream houses or flats. The "Quick Links" section has links to "About Us" and "Contact us". The "headOffice" section includes an address ("Deccan Gymkhana, Pune, postal code: 411016"), a phone number ("+91-7845967852"), and an email address ("homerental@hrs.com"). At the bottom, there are social media icons for Facebook, Instagram, LinkedIn, and Twitter.

## 8.4 Owner

### 8.4.1 Add Owner Page

The screenshot shows a web browser window titled "React App" with the URL "localhost:3000/ownerreg". The page has a header with links: "Home", "Log In", "Tenant Registration", and "Owner Registration". Below the header is a section titled "Owner SignUp Form" with the following fields:

## 8.5 Tenant

### 8.5.1 Tenant Registration Page

The screenshot shows a web browser window titled "React App" with the URL "localhost:3000/tenantreg". The page has a pink header bar with navigation links: "Home", "Log In", "Tenant Registration", and "Owner Registration". The main content area is titled "Tenant SignUp Form". It contains several input fields with placeholder text: "Enter Email id:", "Enter Password:", "Enter First name:", "Enter Last Name:", and "Enter contact\_no No.". Each input field is preceded by a small "..." icon.

The screenshot shows a web browser window titled "React App" with the URL "localhost:3000/tenantreg". The main content area contains two dropdown menus: "Select City" and "Select Area", both with placeholder text "...". Below them is an input field for "Enter Address line:" with placeholder text "...". At the bottom of the form are "Submit" and "Reset" buttons. The page has a pink header bar with navigation links: "Home Rental System", "Quick Links", and "headOffice". The "Home Rental System" section contains a paragraph about providing dream houses. The "Quick Links" section has links to "About Us" and "Contact us". The "headOffice" section lists the address "Deccan Gymkhana, Pune, postal code: 411016", phone number "+91-7845967852", and email "homerental@hrs.com". Social media icons for Facebook, Instagram, LinkedIn, and Twitter are also present.

## 8.5.2 Tenant Payment Page

The screenshots show a tenant payment page with the following details:

- Header:** The top two screenshots have a pink header bar with the text "Home Rental System" on the left, "Quick Links" in the center, and "headOffice" on the right. The bottom screenshot has a purple header bar with the same "Home Rental System", "Quick Links", and "headOffice" sections.
- Email Input:** A text input field containing "shiv@gmal.com".
- Request Count Input:** A dropdown menu showing the value "10".
- Amount Calculations:** Text labels indicating "Amount for No of Request is" and "Amount for Subscription is 100".
- Amount to Pay Input:** A text input field with a dollar sign prefix and the value "NaN".
- Buttons:** Two buttons at the bottom: a blue "Pay" button and a grey "Reset" button.

**Footer:** The bottom screenshot includes a footer section with the following information:

- A message: "We are here for you to provide your dream house or live comfortably in PG or flat. So, search your PG, flat and house for living".
- Links: "About Us" and "Contact us".
- Contact info: "Deccan Gymkhana, Pune, postal code: 411016", a phone icon with "+91-7845967852", and an email icon with "homerental@hrs.com".
- Social media icons: Facebook, Instagram, LinkedIn, and Twitter.

## **8. CONCLUSION AND FUTURE SCOPE**

The Home Rental project presents a comprehensive solution to address the challenges faced by both tenants and property owners in the real World. By providing a user-friendly online platform, it streamlines the rental process, enhances transparency, and fosters direct communication between tenants and property owners. The project offers a range of benefits, including time and cost savings, market insights, and global accessibility. As it expands and evolves, it has the potential to transform the way people find and rent properties, offering convenience and efficiency to users in the dynamic world of real estate.

Our system provides a straightforward and user-friendly platform that allows tenants to effortlessly search for flats and homes using images, based on their specified city and area preferences.

### **Future extensions for the Home Rental project could include:**

Mobile App Development: Creating mobile apps for Android and iOS to enhance user accessibility and engagement.

Payment Integration: Integrating payment gateways for seamless rental transactions and secure online payments.

Advanced Search Filters: Implementing advanced search options like filtering by amenities, location, and price range.

Rating and Reviews: Adding a rating and review system for properties and tenants to build trust within the community.
